Graduate Studies

The University of Puerto Rico at Mayagüez has a long history of excellence in graduate education. We have an assistantships program (tuition waiver and a monthly stipend) that benefits over 70 percent of the students, while they train to excel as teachers and researchers. Teaching is conducted in English and Spanish, giving you an excellent opportunity to learn another language. The back of this page lists the graduate programs.

Our website provides access to the application for admission, the graduate catalog (in English), updated information about our programs, and links to all departments. For more information write to grad@uprm.edu. We look forward to receiving your application!
